Real time Alarm Notification on LINE

TT SMART VISION CO., LTD.

LINE is the messaging application that are very popular in Japan, Thailand, Laos and several Southeast asian country, which can sent several media over LINE such as text, weblink, picture, video, voice. We also can make and receive a call using Line application too.

TT Smart, we change the way, user get the alarm from Email (no internet access at all time), SMS (no picture, can't verified alarm) to an instant messaging LINE (provide real-time alarm with picture/video).

TT SMART VISION was develop new method of sending an important alarm notification to Line User, by using TT-Line Notify software, system can sent out alarm towards specific LINE group that want to receive important alarm information, such as Blacklist Face/License plate to Security Group or VIP Face/License plate to Shop owner or management group to better service to customer.
